Report on the ... World Congress International Federation of Commercial, Clerical, and Technical Employees. World Congress [Marie Antoinette: The Portrait of an Average Woman](#) Stefan Zweig 2019-08-09 Originally published in 1932 and for decades since one of Stefan Zweig’s most popular biographies, this “portrait of an average woman,” betrothed at fourteen, crowned queen at nineteen, and beheaded at thirty-seven, aimed “not to deify, but to humanize.” Supplementing library and archival research with psychological insight,Marie Antoinette: The Portrait of an Average Woman is a vivid narrative of France’s most famous queen, her relations with her mother Empress Maria Theresa, her husband Louis XVI, and her lover Swedish Count von Fersen, set against the backdrop of the French and Austrian courts of the ancien régime, the French Revolution and the Terror. “... the biography to end all biographies on Marie Antoinette ... [Zweig's book] possesses all the qualities of the excellent biography — directness, frankness, full exposition, picturesqueness, characterization, color and delectable readableness.” —The New York Times “Powerful, magnificent, poignant...” — The New Republic “A stupendous and superb piece of work.” — Chicago Daily Tribune *Sexual Bargaining in the Digital Era* John H. Scanzoni 2021-10-05 Sexual Bargaining in the Digital Era follows the evolution of genders/sexualities and so on away from their Old Normal (ON) pattern, which prevailed during the Agricultural Age and the Industrial Age, and into the New Normal (NN) pattern which is currently surfacing in concert with an emerging Digital Era. ON was based on the ancient traditional script governing how women, men, children ought to behave within the spheres of genders/marriages/families/relationships/sexualities. Over the centuries, ON eventually modified into the familiar 1950s’ style (nuclear) patriarchal, cisgender, husband/wife/with children and family. And now that style itself is fading away into NN. NN is based not on script but on improvisation—it is essentially a continual work-in-progress. To make it function the partners engage in ongoing negotiation governed by the principle that “everything is negotiable except the principle that everything is negotiable.” NN has thus far been pursued most frequently by persons (New Lights) who are educated and relatively advantaged. ON has been pursued mostly by persons (Old Lights) who are less educated and relatively less advantaged. ON is also strongly embraced by persons of a traditional religious bent—persons who tend to be rigid and unbending in their religious views. Currently, they tend to be extremely right-wing evangelicals and extremely right-wing Catholics. Importantly, their political clout far exceeds their relatively modest numbers within the larger population. In brief, the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing (and reinventing) certain arrangements of genders/marriages/families/relationships/sexualities, enabling them to fulfil their needs for primary (intrinsic/emotional) satisfactions such as liking, loving, empathy, companionship, sexual and so forth. Among other things, this shift replaces the preeminence of the historic binary or cisgender approach—heterosexual, legal, children and so on—in favor of the diversity/variety/multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders, sexualities and so on. All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good.

[Radical Critiques of the Law](#) International Association for Philosophy of Law and Social Philosophy, World Congress 1997 The past two decades have seen an outpouring of work in legal theory that is self-consciously critical of aspects of American law and the institutions of the liberal state. In this lively volume, eminent scholars in philosophy, law, and political science respond to this recent scholarship by exploring what constitutes a "radical" critique of the law, examining such theories as critical legal studies, feminist theory and theories of "difference," and critical race theory. The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take. Writing at the cutting edge of the critique of critical legal theory, they offer insights first on critical legal scholarship, then on feminist political and legal theory. A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism, while a final section focuses on current issues of legal reform through critical views on criminal punishment, including observations on rape and hate speech. Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it, while accompanying commentaries present conflicting views. The resulting dialogue explores wide-ranging issues like equity, value relativism, adversarial and empathic legal advocacy, communitarianism and the social contract, impartiality and contingency, "natural" law, and corrective justice. A common thread for many of the articles is a focus on the social dimension of society and law, which finds the individualism of prevailing liberal theories too limiting. Radical Critiques of the Law is particularly unique in presenting critical and feminist approaches in one volume—along with skeptical commentary about just how radical some critiques really are. Proposing alternative critiques that embody considerably greater promise of being truly radical, it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best.

13 Things Mentally Strong Women Don't Do Amy Morin 2018-12-31 In the time of the #MeToo and #TimesUp movement, international

bestselling author and leading global expert on mental strength Amy Morin turns her focus to feminism, explaining what it means—and what it takes—to be a mentally strong woman. The emergence of the #MeToo and #TimesUp movements have awakened society and encouraged women to find their voice and claim their power. But to do this, women must learn to improve their own mental strength. Contending with a host of difficult issues—from sexual assault on college campuses, to equal pay and pay gaps, to mastering different negotiation styles—demands psychological toughness. In this crucial book, prominent psychotherapist and licensed clinical social worker Amy Morin gives women the techniques to build mental muscle—and just as important, she teaches them what not to do. What does it mean to be a mentally strong woman? Delving into critical issues like sexism, social media, social comparison, and social pressure, Amy addresses this question and offers thoughtful, intelligent advice, practical tips, and specific strategies and combines them with personal experiences, stories from former patients, and both well-known and untold examples from women from across industries and pop culture. Throughout, she explores the areas women—and society at large—must focus on to become (and remain) mentally strong. Amy reveals that healthy, mentally tough women don’t insist on perfection; they don’t compare themselves to other people; they don’t see vulnerability as a weakness; they don’t let self-doubt stop them from reaching their goals. Wise, grounded, and essential, 13 Things Mentally Strong Women Don’t Do can help every woman flourish—and ultimately improve our society as well.

[A Companion to the War Film](#) Douglas A. Cunningham 2016-05-31 A Companion to the War Film contains 27 original essays that examine all aspects of the genre, from the traditional war film, to the new global nature of conflicts, to the diverse formats war stories assume in today’s digital culture. It includes new work from experienced and emerging scholars that expands the scope of the genre by applying fresh theoretical approaches and archival resources to the study of war films. The essays discuss “the combat film” but then also move beyond those limited confines to cover home-front films, international and foreign- language films, and the uses of alternative media—including Internet videos, military recruitment ads, government-produced films, and TV programs—across a range of conflicts, nations, and time periods. The essays address complex questions of gender, race, forced internment, international terrorism, and war protest in films such as American Sniper, Good Kill, Grace is Gone, Gran Torino, The Messenger, Snow Falling on Cedars, So Proudly We Hail, Tae Guk Gi: The Brotherhood of War, Tender Comrade, and Zero Dark Thirty. Taken together, these essays provide a nuanced vision of war film that brings the genre firmly into the 21st century and points the way for exciting future scholarship.

(A)Typical Woman Abigail Dodds 2019-01-17 A Woman Through and Through In a culture that can belittle womanhood on the one hand—making it irrelevant—and glorify it on the other—making it everything—it’s hard to know what it really means to be a woman. But when we understand womanhood through the lens of Scripture, we see that we need a bigger category for what God has called “woman.” This book breathes fresh air into our womanhood, reminding us what life in Christ—as a woman—looks like. When we see that we are women in all we do, we can be at peace with how God has created us, recognizing womanhood as an essential part of Christ’s mission and work.

[Women Don't Ask](#) Linda Babcock 2021-01-05 The groundbreaking classic that explores how women can and should negotiate for parity in their workplaces, homes, and beyond When Linda Babcock wanted to know why male graduate students were teaching their own courses while female students were always assigned as assistants, her dean said: "More men ask. The women just don't ask." Drawing on psychology, sociology, economics, and organizational behavior as well as dozens of interviews with men and women in different fields and at all stages in their careers, Women Don't Ask explores how our institutions, child-rearing practices, and implicit assumptions discourage women from asking for the opportunities and resources that they have earned and deserve—perpetuating inequalities that are fundamentally unfair and economically unsound. Women Don't Ask tells women how to ask, and why they should.

Basics about the Typical Adult Female Human William M. Lybarger Edd Ct 2018-02-15 Guys, ever wonder how women think...Why they act the way they do?...Why they say the things they say?...Why they may sometimes seem to be, or are, unpredictable? Well, this booklet explains at least some of their thinking and behavior and its impact on our relationships with them. The booklet includes three major parts that form its framework and are based upon my clinical education and service, and life experiences: 1). Background (things to keep in mind - especially for men - when using this booklet) 2). Observations (a blend of specific areas and issues of behaviors and gender differences that can be of importance in building and maintaining relationships) 3) Suggestions (things that might be important to your woman when sharing a home and family life). Once you have read through and become familiar with its content, you should give it to your woman and ask that she

carefully read and evaluate the importance of each item in the Observation and Suggestion sections. For each item she will have the opportunity to rate its level of importance for her, using a four point scale, and add notes to personalize her responses. Also, space has been provided for your woman to add her own observations and suggestions that have not been included in the booklet. When she has finished her review she should return her completed booklet to you to read through and become familiar with her responses. Then, the two of you should sit together where you will not be disturbed and carefully review her responses and clarify any issues or concerns that either of you may have. The stage is now set for the two of you to share how you might best provide those considerations and behaviors she needs to feel like a woman who is totally loved and appreciated. You will now have intimate knowledge and insight to guide you in providing it for her. This is not necessarily a "one-way street.."this process can easily include considerations and behaviors you need to feel like a man who is totally loved and appreciated! My intention in compiling these things in booklet form is to provide a tool for a better understanding of - and communication with - your woman. This tool's primary function is to provide a structured frame of reference for discussing mutual expectations, perceptions, common issues, and possible misunderstandings that we men and our women may experience in a relationship from time to time. It is not intended to provide a full or complete review of those things but is intended to serve as a starting place for discussion. It is my hope that all users of the booklet will find it to be easy to read, easy to understand, and easy to use in establishing, maintaining, repairing and/or improving a long-term loving relationship.

An Inquiry Into the Intimate Lives of Women Marc Lanval 1950

Criminal Woman, the Prostitute, and the Normal Woman Cesare Lombroso 2003-12-26 Cesare Lombroso is widely considered the founder of the field of criminology. His theory of the "born" criminal dominated discussions of criminology in Europe and the Americas from the 1880s into the early twentieth century. His book, *La donna delinquente*, originally published in Italian in 1893, was the first and most influential book ever written on women and crime. This comprehensive new translation gives readers a full view of his landmark work. Lombroso's research took him to police stations, prisons, and madhouses where he studied the tattoos, cranial capacities, and sexual

behavior of criminals and prostitutes to establish a female criminal type. Criminal Woman, the Prostitute, and the Normal Woman anticipated today's theories of genetic criminal behavior. Lombroso used Darwinian evolutionary science to argue that criminal women are far more cunning and dangerous than criminal men. Designed to make his original text accessible to students and scholars alike, this volume includes extensive notes, appendices, a glossary, and more than thirty of Lombroso's own illustrations. Nicole Hahn Rafter and Mary Gibson's introduction, locating his theory in social context, offers a significant new interpretation of Lombroso's place in criminology. Stereotypical or Non-typical? Women in Polish TV Series: Their Image, Presence and Context of Appearance Radosław Sojak The key objective of this work is to answer the question: To what extent do contemporary Polish TV series try to change stereotypes about women and to what extent do they preserve them? The analysis involved a total of eight series produced and broadcast by Telewizja Polska, TVN and Telewizja Polsat, grouped by genre into: (1) drama series - soap operas; (2) historical drama series; (3) crime dramas and (4) comedy series. The analysis included 76 episodes of the above series with a total length of 49 hours and 51 minutes. The subject of quantitative analysis was the total speaking time of female characters and their visibility on the screen. The qualitative analysis was based on the identification of the most important gender stereotypes and their use in the series' storylines. In the analysed series, female characters speak for one fifth of the time longer than male characters and are visible on the screen 15% longer than male characters. The dominant plots in the sample are issues of interpersonal relationships, i.e. partner relationships, emotional and sexual relationships (29%) and casual social relationships (meetings, visits, parties - 26%). Together, both contexts account for 55% of the time. Their analysis establishes (with a few exceptions) the most prevalent cultural stereotypes about women, including in particular: greater emotionality, strong focus on family and home matters (but not necessarily childcare), and general life orientation on building lasting interpersonal relationships. Due to the requirements of the plot, these stereotypes are nevertheless broken through. In particular, women often turn out to be resourceful and entrepreneurial. The analysis of stereotypes also indicates that the introduction of women into traditionally male roles is much easier than introducing men into roles traditionally considered female.
