Counting Sheep Axel Lindén 2018-11-20 Norwegian Wood meets The Tao of Pooh in this philosophical, witty, and heartwarming collection of daily observations from a Swedish academic-turned-sheep farmer who finds peace and meaning outside the hustle and bustle of modern, urban life. One of the fun things about keeping sheep is that now and then it feels like something other than a job or a duty. Perhaps the feeling can best be summed up by the idea that it's not I who keep the sheep, but the sheep who keep me. When Axel Lindén leaves his literary life in the city for the farm he unexpectedly inherits—along with the ever-escaping flock of sheep that comes with it—he has a fairly naive notion of what farm life will be: pure drudgery. But as time passes and Axel slowly settles into the rhythms of the farm and shepherding, his naiveté fades away and is gradually replaced with a new appreciation of the spiritual and emotional value of manual labor, caring for other living things, and staying connected to the earth. Capturing his observations and thoughts in short diary entries, Counting Sheep is a meditative and irresistibly delightful book that delves into the small wonders of our world and celebrates pastoral life, demonstrating that it’s often the little things in life that mean the most.

Wolves in Sheep's Clothing Stephen Marshall 2007-01-01 Faced with the collapse of the American dream at home and the decline of their global empire abroad, American liberals have dumped the 1960s-era radicalism of their youth and become complicit in a complex game of bait-and-switch, selling the world a vision of liberal democracy that is, in reality, a failed system on the verge of social and economic collapse. In the tradition of Tom Wolfe and Hunter S. Thompson, Stephen Marshall, a Sundance Award-winning director and co-founder of Guerrilla News Network, hits the road and travels from the front lines of the Iraq war, through the wasteland of the former Communist Eastern bloc, into a coke-dusted sex party of Britain's intellectual elite, and into the minds of America's most influential liberal figures. Marshall finds America's most powerful liberals, all part of the same baby boomer generation that has dominated US political life since their voices broke in the 1960s, pushing a new form of "liberal interventionism" that threatens to use force to bring political freedom to oppressed people. But is the democracy they are exporting to the world really what they say it is? Or have liberals buckled under the pressure of America's declining fortunes and taken on the role of good cop to the conservatives' bad? Featuring interviews with Christopher Hitchens, Gore Vidal, David Horowitz, Lewis Lapham, John Avlon, The Economist's John Micklethwait, Guardian Editor-in-Chief Alan Rusbridger, and best-selling authors Thomas Friedman, Paul Berman, and John Perkins.

Paranoid Sheep (What if) Lord M. A. Fricker 2015-08-27 “Alf,” I said, “What is it you want me to do then?” He replied simply, “To spread the word of something big that’s going to happen to the sheeple of Planet Earth if they don’t buck up their ideas.” In his new book Paranoid Sheep, author Lord M. Sheep, Predators and Sheepdogs Roy Tucker 2020-06-22 Enjoying God's protection while safely tucked under His wings can cause one to wonder if he needs to take steps to protect himself. Do I need to carry a sword for protection when there are angels in charge of me? Do I need to lock my door with angels camped outside in my yard? Such things I do ponder in my heart. I read in the book of Proverbs that a wise man perceives the times and dangers approaching and prepares his household-the fool perishes (Proverbs 22:3). Some say one must live entirely by faith and preparing for a disaster is not living by faith. I wonder, yes, the Lord protected Noah and his family during the great flood, but Noah had to build a boat with his own two hands. The Lord fed a multitude of people with twelve fish, but someone had to catch the fish. He turned water into wine, but someone had to fill the barrel with water from the well. When Satan entered heaven and boldly walked into God's court, the Lord asked him, "Where have you been?" Satan replied, "From going to and fro in the earth, and from walking up and down in it, to see whom I could devour!" (Job 2:2). We should know that evil can walk right up to us at any given moment, and our sword needs to be ready. If evil can freely and boldly walk into God's court in heaven when he chooses, how much easier for him to walk into our homes, our children's school, our church, or stand over our bed looking at us while we sleep. King David knew the Lord was watching over him, but he still carried a sword to defend against

any evil that may come suddenly upon him, and the Lord Jesus told his disciples that if they did not have a sword, they should go immediately and sell their garments and buy one (Luke 22.36). Indicating it was far better to walk down the street naked than walk down the street unarmed. It is the individual's responsibility to protect himself, family, and community when evil approaches. Come, explore this wonderful journey with me.

Sheepish Catherine Friend 2011-04-26 What do you do when you love your farm . . . but it doesn't love you? After fifteen years of farming, Catherine Friend is tired. After all, while shepherding is one of the oldest professions, it's not getting any easier. The number of sheep in America has fallen by 90 percent in the last ninety years. But just as Catherine thinks it's time to hang up her shepherd's crook, she discovers that sheep might be too valuable to give up. What ensues is a funny, thoughtful romp through the history of our woolly friends, why small farms are important, and how each one of us--and the planet--would benefit from being very sheepish, indeed.

A Compleat System of Experienced Improvements, Made on Sheep, Grass-lambs, and House-lambs: Or, the Country-gentleman's, the Grazier's, the Sheep-dealer's, and the Shepherd's Sure Guide ... By William Ellis .. William Ellis (Farmer.) 1749

Wolves in Sheep's Clothing Larry Herneisey 2020-01-28 And Jesus answered and said unto them, take heed that no man deceive you. (Matthew 24:4) Are Christians in today's churches being deceived? If we were, how would we know? We often accept doctrines of today's popular teachers at face value, without ever comparing their claims against the principles of Scripture. Taking for granted that everything we are hearing taught is truthful and sound doctrine, is to be very naive. Jesus warns us in Matthew 7:15, "Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves." We live in an age of rapid change and much deception. If the teaching of the church is going to remain sound, the responsibility rests with us. "Wolves in Sheep's Clothing" is a study guide, a reference source, and a thought-provoking look at many of the teachings prevalent in today's Christian church. The author exposes many of today's false teachings, often with a bold stance. The false teachers propagate their lies with boldness, therefore at times it is necessary to stand against them with boldness. After studying this work, the reader will be empowered to sort through the misleading and deceptive doctrines of today, and avoid the common traps set by most false teachers. Hopefully by the end of the study the reader will have learned practical ways to determine for himself whether a teaching is truthful or in error. At the very least this study will provoke the reader to deep spiritual thought, and at the most, it will set people free from the bonds of false teaching. This study will benefit the fresh new believer and the seminary student, as well as the seasoned Bible teacher. This work is a must read for pastors, teachers, Bible study leaders, and anyone who thirsts after truth.

In Sheep's Clothing Chauncey G. Parker III 2019-09-15 No sooner does freshly minted Reverend Beau Dillard answer his calling to Resurrection House than he gets wind of his immediate predecessor having been found dead, wedged amongst some pilings in the Minatree River Basin. Understandably unnerved by this too-close-to-home revelation, Beau is nonetheless deftly neutralized by the fervid attentiveness of his direct boss, Kathy Symes Cantrell, Mother Superior of this Diocesan Hospice for Troubled Young Ladies. In due course, however, her unshakable faith in the end justifying whatever means, irrespective of the corruption required to get there, convinces him she is either the most brilliant person he has ever encountered or plainly certifiable. Were it not for the aid and comfort given him his his mentor, the powerful diocesan cardinal Rector, as well as knowing that he is adhering faithfully to his revered Bishop's mandate, Beau might have been spared. But no, not until the sun is about to set does he at last catch on, too late, that he and these two men of the cloth, in the truest sense churchly role models both, are not, and indeed may never have keen on the same page. And so, he holds fast to the standards inculcated in him at Benedictus, to the point of no return. Nonetheless, at journey's end, he knows what he must do, and does it.

Black Sheep Achebe Toldson 2004 From the grimy streets of the Upper 9th Ward in New Orleans, to the urban stockades of Bed-Stuy in Brooklyn, Black SheeP traces Duce's poignant and haunting journey from college-life, to thug-life, to eternal-life. Life was hard knock in the hood where Duce grew up in a rotting shotgun house with his mother and younger brother. He and his best friend, Jason, were both intellectually gifted teens who struggled together to find a place in society, while abiding in the mire of drugs and poverty in their community. Duce and Jason's tenacity however, set them on opposite pathways - Jason became the neighborhood "Dope Man," and Duce became a "College Boy." By the time Duce graduated from Southern University, it seemed he had it all - honorable grades, an attractive, high-society girlfriend, and a scholarship to attend grad school at Big State, a large flagship university in a rural midatlantic college town. But when he arrived at Big State, culture-shock knocked him off his high horse. Ultimately, his world crashed and he lost everything. When he returned home he couldn't escape the drug culture in his community. At the pith of his despair, he met a young black counselor named Coby in his court-ordered treatment program. Coby felt spiritually compelled to break Duce's defenses and uplift him through black empowerment. However, as Coby helped Duce overcome his demons, he began to unleash the ghosts in his own past. By fate, Duce, Jason and Coby were pieces of the same puzzle, posted on a platform of social injustice, government corruption and street life. The connection they had could be the insight they needed to make life make sense, or the dagger that would rip their souls apart.
